

Analyze User Request:

Analyze User Request

Overview

Submit a detailed analysis request to our team for a personalized review of your needs. We'll provide actionable insights and recommendations.

How It Works

1. **Submit Request**: Fill out the form with:

- Your specific requirements (e.g., "I need a tool to track user engagement metrics").
- Preferred format (e.g., PDF, spreadsheet, or live session).
- Deadline (if applicable).

2. **Review**: Our team analyzes your request within 72 hours.

3. **Receive Results**: Get a detailed report with:

- Key findings (e.g., "Your current tool lacks real-time data").
- Recommendations (e.g., "Integrate API X for live updates").
- Next steps (e.g., "Book a 30-minute call to discuss").

Pricing

Free: Basic analysis included with every submission.

Premium: \$50 for priority review and a dedicated analyst (optional).

Distribution

Website: Published on our owned site with SEO optimization.

Social Media: Promoted via posts and targeted ads (e.g., "Get a free analysis of your product needs").

Email: Announced in our newsletter to subscribers (e.g., "Exclusive: Free analysis for our top 100 subscribers").

Maintenance

Daily: Monitor server logs and user feedback.

Bug Fixes: Critical bugs patched within 4 hours.

Iterations: Weekly UI/UX updates based on analytics (e.g., simplify the form if 30% of users abandon it).

Success Metrics

Goal: Increase submitted analysis requests by 20% in 3 months.

Kill Rule: Stop if 3 iterations generate no revenue.

Boost Rule: Promote if \$10+ in revenue is generated (e.g., highlight success stories).

Clone Rule: Expand if \$50+ in revenue is generated (e.g., add a "Pro Analysis" tier).
