Analytics & Monitoring
1. **Key Metrics:**
   - Page views, bounce rate, download count (email sign-ups).
   - Track conversions (email sign-ups → guide downloads).
2. **Daily Check:**
   - Adjust copy or CTAs if bounce rate > 50%.
   - Pause low-performing channels (e.g., if Reddit engagement is weak).

Maintenance Plan
1. **Quarterly Updates:** Refresh content to reflect tax law changes.
2. **User Feedback:** Simple contact form for questions.
3. **Validation Window (72 Hours):**
   - **Kill Rule:** If no sign-ups after 3 iterations, pivot.

- **Boost Rule:** If $1 in revenue (e.g., a paid lead), scale.
- **Clone Rule:** If $50+ in revenue, expand into a premium version.

Post-Validation Decision
- **Keep Free:** If sign-ups are strong, use as a lead magnet.
- **Expand Paid:** If demand justifies it, add premium features (e.g., tax calculator, live Q&A).

Next Steps:
1. Build the landing page (use tools like Carrd or WordPress).
2. Launch distribution (start with email/newsletter).
3. Monitor analytics daily.

Farm Tax Guide (PDF Content)

Section 1: Getting Started
Checklist:
- ✅ Gather all required documents (see Appendix A).
- ✅ Verify your tax year (2024).
- ✅ Set aside 2-4 hours for filing.

Section 2: Calculating Farm Income
Example Schedule F (2024):

Line	Description	Amount
1	Gross farm income	$50,000
2	Subtract ordinary business expenses	$30,000
3	Net farm income	$20,000

Key Deductions (2024):
- **Qualified Business Income (QBI) Deduction** (20% of net income).
- **Section 179 Expensing** (Max $1,160,000 in 2024, phase-out threshold: $2.89 M).

Example Section 179 Calculation:
- **Equipment Cost:** $200,000
- **2024 Limit:** $1,160,000 (maximum, not guaranteed)
- **Phase-Out Threshold:** $2.89 M
- **Expensed This Year:** $200,000 (no phase-out).

Section 3: Required Documents
Printable Checklist:
