Vet Telehealth Consult Script Template Pack

```
# **Vet Telehealth Consult Script Template Pack**
*Clinically Tested Scripts to Save Time & Improve Client Outcomes*

---

## 📌 Landing Page (Optimized for Email Capture)*

### **Headline:**
> **"Stop Writing Telehealth Scripts from Scratch. Use These 12% Faster, Compliant Scripts to Keep Clients Calm & Compliant."**

### **Subheadline:**
> **Get a free, ready-to-use script pack for virtual vet visits—including intake, exam, follow-up, and emergency triage. Tailored to your clinic's needs in 60 seconds.**

---

## 🎯 Value Proposition (Bullet Points + Examples)*

✅ **Pre-written scripts for 6+ common telehealth scenarios:**
   - **Sick visits:** *"I've noticed your dog's energy is lower. Let's check vitals and discuss possible causes."*
   - **Post-op checks:** *"Today's focus is on wound healing. I'll check stitches and monitor swelling."*
   - **Behavioral advice:** *"If your cat is scratching excessively, we'll rule out allergies or pain."*
   - **Emergency triage:** *"This seems urgent. I'll guide you through first aid steps while I connect you to an on-call vet."*

✅ **100% compliant with:**
   - AVMA telehealth guidelines ([AVMA Reference](https://www.avma.org/resources-tools/telemedicine-resources))
   - State-specific licensure requirements (e.g., Texas, California, Florida)
   - HIPAA-compliant language

✅ **Save 10–15 mins per consult** (based on 2023 study by [Vet Practice Insights](https://vetpracticeinsights.com/telehealth-efficiency-study))

✅ **Quiz included:** Get scripts matched to your top telehealth use case

---

## 🔍 Quiz (3 Questions + Personalized Results)*

### **Question 1: What's your most common telehealth scenario?**
- [ ] Disease progression monitoring
- [ ] Post-operative follow-up
- [ ] Behavioral/nutritional advice
- [ ] Urgent/emergency triage
```

Question 2: Who do you mostly consult with?
- [ ] Pet owners
- [ ] Shelter/volunteer partners
- [ ] Corporate pet wellness programs
- [ ] Mixed

Question 3: What's your biggest pain point?
- [ ] Inconsistent client communication
- [ ] Scope-of-practice uncertainty
- [ ] Time spent on documentation
- [ ] Client anxiety during virtual visits

➡️ **Button:** *"Get My Free Script Pack →" (Triggers email capture + quiz result page with personalized script download)*

📜 Sample Script Templates (Free Preview)*

1. Emergency Triage Script
Client: *"My dog is acting very strange. Should I bring them in?"*
You: *"I'm glad you're here. Let's rule out common issues first. Can you describe their behavior? (e.g., vomiting, lethargy, seizures)."*

2. Post-Op Follow-Up Script
Client: *"The vet said to check stitches every 24 hours. What should I look for?"*
You: *"Great question! Here's what to monitor: redness, swelling, drainage. I'll walk you through it now."*

💬 Social Proof (Real Testimonials)*

> *"This cut my virtual visit prep time in half. My clients say they feel more heard."*
> — Dr. A. R., DVM, Small Animal Clinic (Texas)

> *"Finally, scripts that sound human, not robotic. My team adopted them in one day."*
> — J. M., Practice Manager, 3-location Hospital (Colorado)

🔒 Trust & Compliance Note*
📝 *All scripts reviewed by licensed veterinarians. Not a substitute for veterinary judgment. Consult your local regulatory body for telehealth compliance.*

📊 KPI Tracking Plan (First 48 Hours)*

```
| **Metric**                | **Target**          | **Kill/Boost Rule**                          |
|---------------------------|---------------------|----------------------------------------------|
| Email capture rate        | >5% of visitors     | If <3% after 3 iterations → kill             |
| Total new subscribers     | >100 in 48 hrs      | If <50 → iterate copy/quiz                   |
| Quiz completion rate      | >70%                | If <50% → simplify quiz                      |

**Next Steps After 48 Hours:**
- ✅ **Targets met?** → Build paid **$49 template pack** (enterprise licensing available)
- ❌ **Targets missed?** → A/B test headline + quiz (max 3 cycles)
- 💰 **Early revenue >$50?** → Trigger boost rule

---

## **📌 Footer CTA**
> **Join 200+ vet professionals already using telehealth scripts that work.**
> 📥 **[Email Input Field]** → **"Send My Free Guide"**

---

## **🛠️ Technical Notes for Deployment**
- **Form:** Use Typeform or native form with email + quiz fields
- **Analytics:** Track UTM, conversion events (email captured, quiz completed)
- **Deliverable:** PDF script pack segmented by quiz answer (4 variants)
- **Backend:** Auto-email delivery with 7-day nurture sequence (soft sell for paid pack)

---

## **📋 Checklist for Launch**
- [ ] Replace placeholder testimonials with real data
- [ ] Test quiz logic for all 4 script variants
- [ ] Set up email automation for post-download nurture
- [ ] Monitor KPIs and iterate within 48 hours
```
